

i-CONN Network

This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement No 859937

Transdisciplinary Management
Group: Terms of Reference. D6.2
November 2020

i-CONN: Transdisciplinary Management Group: Terms of Reference

Context

In the i-CONN proposal we emphasised that transdisciplinarity was central to our network and we underlined the value in generating transdisciplinary capacity as fundamental to both our substantive research and the translation of our research into practice. We also acknowledged that our transdisciplinary approach requires an ongoing process of collective learning and capacity-building between the research and practitioner teams.

i-CONN has developed a Transdisciplinary Protocol to support the i-CONN team to create the capacity required to effectively deliver our transdisciplinary approach. It is crucial that all those involved in the project collaborate to develop and learn from our transdisciplinary practices iteratively to improve our work and ensure we deliver the outcomes stated in our project proposal.

Aims and objectives

The purpose of the Transdisciplinary Management Group (TMG) is to manage and oversee the Transdisciplinary Protocol.

The objectives of the TMG are to:

- i) Ensure that the activities and data collection outlined in the Transdisciplinary Protocol are coordinated and undertaken.
- ii) Provide a written annual report to the i-CONN Management Board.
- iii) Provide an oral Report to the network at each Annual Meeting.
- iv) Design a session on transdisciplinarity at the Annual Meeting.
- v) Analyse and publish the findings from the data collection outlined in the Transdisciplinary Protocol. The TMG will aim to write at least one paper on transdisciplinarity of the i-CONN network.

Reporting and timeframe

The TMG will meet twice yearly with a schedule that will facilitate delivering a report and activity at each Network Event.

The TMG will report to the Management Board.

Membership

The membership is drawn from ESRs, project partners, principal investigators and the project manager.

Role	Member
Chair	Louise Bracken
ESR rep1	Shubham Tiwari
ESR rep2	Marcel Mallow
Partner rep	TBC
Principal Investigator	Christina Prell
Principal Investigator	TBC
Project Manager	Jenny King
